CORE SKILLS

- Rapid prototyping
- Problem declaration & solutions
- Embedded hardware
- Human–machine interaction
- Production & team leadership

HARDWARE & CODE

ESP32 · ESP-NOW · ESP-IDF · C++ · Sensors & encoders · LEDs & haptics · Battery & power · Serial / OSC · C# · Unity · .NET MAUI · Python

DESIGN, SOUND & MEDIA

Fusion 360 · 3D printing · Figma · FMOD · Wwise · Meta XR Audio · PureData · TouchDesigner · Video production & editing

PROFILE

Medialogy graduate from Aalborg University Copenhagen with more than ten years in TV, live music and video production. I turn loose ideas into clear problem statements and working prototypes — from ESP32-based tangible controllers and sensor installations to games, VR and apps — and test them with real users. Touring and live broadcast taught me to plan hard, lead calmly and deliver on time when the show can't move.

EDUCATION

2023 — 2026

BSc Medialogy · Aalborg University Copenhagen

Human–machine interaction, rapid prototyping, embedded electronics, game design, sound and VR, taught through problem-based semester projects.

Bachelor thesis: O.R.B.S. — tangible controllers that promote collaboration in games. Other projects: Tacet VR, IPASIF, My Shadow World, Night Knight, Deepseek.

2013 — 2014

Diploma engineering courses · DTU

Creativity & Innovation, Entrepreneurship, Physics, Programming, Project 1.

2012 — 2013

Business Economics & Psychology courses · Copenhagen Business School

Business economics, economic psychology, psychology and organisational theory.

EXPERIENCE

2018 — now

Tour Manager · Carpark North

- Responsible for the band and everything around them on tour: planning, daily timelines, transport and logistics.
- Main contact for venues and festivals; guest lists and security.
- Shoots and edits tour video content.

2021 — 2022

Head of Production · MA Production

- Oversaw all video production, from pre-production to final delivery.
- Owned production budgets.

2019 — 2021

Product Manager · Moodagent

- Responsible for video assets at the music-AI streaming company, creatively and in production.
- Planned and ran Moodagent events.

RESEARCH METHODS

Usability testing · Think-aloud · Semi-structured interviews · Card sorting · SUS · GEQ / SPGQ / IPQ · Thematic analysis · A/B and between-subjects studies

OFF DUTY

Drums, and repairing and tinkering with electronics.

2011 — 2019

Broadcast TV & film production · Copenhagen

From runner to production manager on live and recorded shows for DR and TV2.

2019	Production Manager	United Production	Voice Junior
